

VENEZUELA EARTHQUAKE RESPONSE

Samaritan's Purse deployed a Disaster Assistance Response Team (DART) and humanitarian aid to Venezuela, where 6,000+ fatalities and 16,700+ injuries have been reported. Multiple 767 airlifts have delivered more than 591,000 pounds of equipment and relief supplies.

Working through 100 local church partners, the DART is **distributing relief supplies to families in need**. We have also deployed two **SeaSpring desalination units** in Caraballeda to convert seawater into drinking water for survivors.

In La Guaira, we are operating a 56-bed **Emergency Field Hospital** that has an emergency room, intensive care unit, two operating rooms, pharmacy, laboratory, and outpatient care. Our medical team is treating many orthopedic injuries, infections, chronic illnesses, and other conditions. In addition, we have **helped five local health facilities restore operations through our Clinic Restart Modules**.

More important than physical needs, our staff and church partners are ministering to the hearts and souls of Venezuelans. We pray with survivors, share the everlasting hope of the Gospel, and trained 212 pastors and their spouses on trauma-informed ministry that equips them to provide spiritual aid in the aftermath of trauma.

KEY FIGURES

- ▶ **Six** airlifts delivered 591,887 pounds of cargo
- ▶ **7,483** patients treated
- ▶ **395** surgeries performed
- ▶ **212** church leaders trained
